Ref: 2795

To whom it may concern

I commenced working with Rajiv on a long term project to produce 1500 product drawings.

The first week of this project was spent working on the finishes and reflections that are so important in the presentation of my products. Rajiv soon discovered I am a perfectionist and he impressed me with his enthusiasm, ideas and commitment to what I wanted. He was always patient and polite and accepted my comments without question or complaint. Instead, he made it his priority to understand my requirements. Furthermore, he was in contact almost every day (via MSN) to check and double check each drawing he produced and ensure I was always happy with his work.

He has now completed an exhausting process of producing 1500 drawings. I could not be happier with the outcome, so much so that I have now commissioned him to produce our Catalogue and Web Site.

If you are considering others along with Rajiv, I hope you make the same choice I did. You will receive the best service you have ever experienced, along with an exceptional high quality of work.

I have genuinely enjoyed my working relationship with Rajiv and consider him a friend.

I cannot recommend Rajiv highly enough to anyone and would be only to happy to discuss this reference further.

Yours sincerely,

Chris McKenzie
